## CITY HAS OUTGROWN FIRE DEPARTMENT

And Needs Many Improvements,  
Says Capt. Stiltz, Expert, Here  
Coaching Fire Laddies

Asserting that Richmond has far outgrown her fire fighting apparatus, Capt. Henry C. Stiltz, expert from the Louisville fire department sent out by the Kentucky Actuarial Bureau, has made a number of recommendations for the purpose of putting the local department on a footing of efficiency.

Along the necessities for Richmond in the fire fighting line he lists:

- Another fire fighting company.
- A ladder truck, carrying a 50-foot ladder to reach to the top of the highest building; and smaller ladders.
- A life net.
- A smoke wash.
- A couple of shut-off nozzles.
- Ropes.
- Water proof covers.
- First aid kit.
- Company drills often.
- Screw jack.
- Chisels.
- Sledge hammers.
- Hose hoist.
- Cellar nozzles.
- Better fire alarm system.

Capt. Stiltz has been giving the fire department, both paid and volunteer, lectures each day and Tuesday afternoon went on a practice run with them. Among the boys who showed up for instruction were Chief Ben Daugherty, Assistant Chief Louis Hardin, Tom Trowers, Jeff Tribble, Russell and Arnold Turpin, West Wells and Roger Pickels.

Capt. Stiltz gave the boys and officials who heard him, some straight talk, which will be read with interest by all. He said in substance:

Gentlemen:—

I am representing the Kentucky Actuarial Bureau as instructor of fire fighting and fire prevention and I want to assure you that it affords me great pleasure in meeting you men who are interested in one of the most honored professions in all the world today, and that is fire fighting. I have spent quite a few years in this game and during this time I have devoted my study to the art of fire fighting, rescue work and training men to perform this duty, being drill master of the Louisville Fire Department. I hope that in my visit here something may be accomplished to give your citizens better fire protection.

I wish I could impress, upon your minds the way I know it; what it means to have an efficient, well trained fire department. Gentlemen, in my travels from town to town, I am beginning to realize that you do not know what protection a fire department is to your town. Nor do you realize what it means to have a destructive fire, with the loss of many lives. I would like for you to tell me where there is such an organization in this or any other town that its men are at their post every minute of the day and night, ready and waiting for a call from some citizen in distress? Where is there an organization that will respond to your call without asking who you are or what you want? Or who else will assume the duty of taking a chance and risk their lives against one of the most tortuous deaths known to humanity, and that is fire?

Gentlemen, there is only one organization of this kind and that is the fire department. Therefore, I say I do not know of any other training that should become more universal than the training of our firemen. In the great world war every boy who left this town to defend his country had to be drilled and trained before he was sent across to take his place in the front lines. Why should not this same rule apply to your firemen? They are defending your town, every minute of the day and night, the year in and year out.

Have you men ever studied what the duties of the fire fighters are? They should save life and property. By telling you, it does not seem like it amounts to much, but I want to assure you that in the performance of saving life and property there is a

great difference. It takes courage and self confidence to scale a wall to rescue persons who are screaming to you from the windows above. It takes bravery to enter a burning building and search the halls and rooms for unfortunate ones left behind. The many chances he takes will make an average citizen turn his head and the many hardships he must endure will take me too long to tell you.

Gentlemen, if you ever realize what protection a fire department is to your town, you will

## POSSE GOES AFTER LAUREL MOONSHINER

London, Ky., Mar. 21—Following a citizens' mass meeting held here Sunday night at which \$200 was subscribed as a reward for the arrest of Frank Helton, who escaped from a road gang near here last week, Sheriff J. E. Stringer announced today that a posse armed with high power rifles will leave some time this week for Rockcastle Springs where Helton according to defiant messages which he has sent to authorities here, is barricaded in his home and "will not be taken alive."

Helton, alleged leader of a moonshining gang, was brought before the grand jury some time ago but refused to testify. Judge H. J. Johnson gave him a sentence of 30 hours in jail and \$30 fine for each of the 13 times that he refused to testify. Helton's home is about 20 miles from London on Rockcastle river.

## BONUS BILL UP IN HOUSE THURSDAY

(By Associated Press)

Washington, Mar. 21—The soldiers' bonus bill will be taken up by the House Thursday under suspension of the rules. Under this procedure a two-thirds majority is necessary to pass the bill. No amendments will be permitted and it will be impossible to recommit the measure to the Ways and Means Committee. Those in charge of the bill are confident it will receive more than a two-thirds majority.

### Democrats Want Cash in Bonus

Washington, Mar. 21—The charge that President Harding and Secretary Mellon "boldly offer a bribe to the World War veterans to espouse the cause of the money powers in their efforts to establish the policy of a general sales tax" is made in a minority report on the soldiers' bonus bill filed Monday by Representative Kitchin of North Carolina, ranking democrat of the Ways and Means committee, and four other minority members of that committee. The other four Representatives are Oldfield of Arkansas, Crisp of Georgia, Carow of New York, and Taggart of Massachusetts.

The report attacks the bank loan provision and declares in favor of cash payments to the veterans. It proposes the legislation be financed by reenactment of the excess profits tax, with a specific exemption of \$50,000 and a restoration of the 65 per cent wartime income surtax rate.

"We believe and insist," the report said, "that the amount of the money bonus or service credit which Congress concludes is justly due the veterans, should be paid in cash on demand, and we protest against the veteran being given, as is provided by the pending bill, a twenty-year due bill which he can pawn with some bank for a loan of only one-half of the amount which Congress, by the bill, confesses the government justly owes him, provided, of course, he can get some bank to ignore and defy the administration in its advice to the banks not to loan a veteran a penny on such due bill or certificate."

"The due bill rain-check-borrow money bonus mode of payment, as provided by the bill, is an insult to every World War veteran and a shameful discredit to Congress and the nation."

"By the bill the veteran is given a scrap of paper and told to go out and hawk it from bank to bank in the hope after being held up for a high rate of interest of getting a little cash on it, not to exceed 50 per cent of what the bill confesses the government now justly owes him."

### A New Sort of Ghost In Pendleton County

Falmouth, Ky., Mar. 20—Ben Wolf, who lives 2 miles west of this place, says that antics credited to the Antigonish ghost of Nova Scotia are tame compared with goings-on in his house. His sleep has been disturbed frequently at night by electric shocks and he has been terrified by crackling noises. Music and voices also broke the stillness. He was almost crazed when he distinguished from a bedlam the announcement that a lecture by some party in Philadelphia would be put on. He at once consulted with Fred Fisher, who has a radio outfit installed on a nearby hilltop, and they came to the conclusion that the wire mattress or springs in Wolf's bed had the functions of a receiving station.

## TURN IN CHURCH LEAGUE UNIFORMS

Baseball fans are beginning to talk about another league in Richmond the coming season. There is considerable sentiment for what the fans call a "Commercial League" it appears, and the promoters of the Church League of last season are going to talk over the matter very soon. President Elmer Deatherage wants all uniforms used in the church league last season turned in to the respective managers of those teams as soon as possible, so that an inventory may be had of just what is on hand and plans made for the coming season. The uniforms should be turned in to Paul Burman, F. C. Gentry, M. F. Enright, Robert R. Burnam, Jr., Harry Bybee and Bob Maupin.

## MRS. WM. COLE DIES SUDDENLY AT HOME

The Bobtown community was shocked and saddened on March 15th at 2 o'clock, when the death Angel entered and carried away the spirit of Mrs. Nettie Lewis Cole. She prepared breakfast that morning, but was feeling badly and went to bed. Dr. B. F. Robinson was called but she passed away just as he reached the home, apoplexy being the cause. It calls to be ready when the Master calls. Mrs. Cole was born January 27, 1870. She gave her heart to God at the age of 17 and united with the Pilot Knob Baptist church and continued a faithful member. She often spoke of her faith and of God's grace; that she was ready to go at any time; that she had a home in heaven prepared for her, not made with hands. She was of that kind disposition, always ready to help in time of need. She leaves her husband, William Cole, five children, Claude Lewis, of Waynesville, O., Mrs. Pearl Lovett, Maud Nathan, and Gladys Lewis, eight grandchildren two brothers, G. W. Moody and W. F. Moody; four sisters, Mrs. R. L. Brown, Mrs. John Lawson, of this county, Mrs. J. F. Lawson, of Fayette county, Mrs. Sterling McGuire, of Harlem, Montana, and many friends and relatives.

## PERKINS FINED AND HELD TO GRAND JURY

A big crowd thronged the county court room Tuesday morning when the charge against Terry Moses Perkins, charged with attempting to detain Mrs. Mary D. Jones against her will, came before County Judge John D. Goodloe. Perkins waived examination on this charge and was held to the grand jury under \$1,000 bond. The parties live at Baldwin. On a charge of breach of the peace preferred against him and his wife by Mrs. Jones, he was given a maximum fine of \$50 and costs by agreed judgment.

Tom Collins and Bid Itson, charged with stealing chickens from John Baldwin on the Tate's Creek pike, waived examining trial and were held to the grand jury under \$500 bond which they have not yet given. Sheriff Elmer Deatherage, who brought the young men back from Hamilton, O., says that they told him they had taken the chickens out of the hen house, but were not guilty of stealing them, for they left them in the sack on the place when Mr. Baldwin came out.

## ROCKCASTLE OFFICERS RAIDING 'SHINERS'

The Mt. Vernon Signal tells of raids by Rockcastle county officers on "shiners" close to the Madison county line as follows:

Thursday of last week Judge Bowman, County Attorney Ballard, Deputy Sheriff Anglin and Elmer Anglin made a raid in the Big Hill section and captured a 60-gallon moonshine still outfit which had been operated by Frank Cornett and Steve McQueen in jail here charged with the murder of Isaac Coyle in connection with another party from Jackson county. McQueen confessed they had been operating the still and told the officers where the worm could be found. A warrant has been issued to Jackson county for the third party.

The officers also made a raid in the Brindle Ridge section on the same day and found four locations, but the stills had been removed, one evidently but a short time before. This must have been a large still as there was evidence that the parties had hastily emptied some 30 or 40 barrels of beer. It is believed this still was taken over into Lincoln county. The officers traced the wagon tracks for two or three miles but when they came to the public road, they lost them.

## FAYETTE LAND VALUED HIGHEST

In U. S. Report With Bourbon  
Next—Unimproved Acres In  
Garrard Rated High

(By Associated Press)

Frankfort, Ky., Mar. 21—Fayette county farm lands with improvements are the most valuable in the state, with Bourbon county lands second, according to the annual estimate of the valuation of lands in the state just issued by the United States Department of Agriculture in cooperation with W. C. Hanna, Commissioner of Agriculture. Fayette county lands, with improvements were valued in 1921, the year for which the report is made, at an average of \$200 an acre and Bourbon county lands at \$191.67 an acre.

Unimproved land in highest in Garrard county with an average of \$162.50 an acre and Bourbon county second with \$161.67 acre.

The reason for the high prices of improved land in Fayette and Bourbon counties, as compared with the unimproved value, according to the officials here, is the fact that there are many estates owned by wealthy men and which have on them many thousands of dollars worth of improvements.

The average value of Kentucky farm lands at the close of the year was \$57 an acre for improved land and \$42 an acre for unimproved land. This compares with \$65 an acre for improved land in 1921; \$85 in 1920 and \$81 in 1919 and \$46 an acre for unimproved land in 1921; \$62 in 1920 and \$60 in 1919.

Eleven counties reported improved lands as valued at more than \$100 an acre. Besides Fayette and Bourbon counties they were Jefferson \$165 an acre; (Continued on page 4)

## COMBS GETS HOMER OFF BROOKLYN

Earl Combs, of Richmond, star athlete of Eastern Normal, is making 'em sit up and take notice on the Louisville baseball team. He cracked out a home run against the Brooklyn National League club in training camp at Pensacola, Fla., Monday. Here's what the Courier-Journal writer said in his dispatch from the training camp:

The outstanding feature of the contest from a local standpoint was a terrific drive outside the park made by Earl Combs, the rookie outfielder from Eastern Kentucky State Normal. Going to bat for the first time in his career as a professional baseball player, Combs pinch hit for Long in the fifth inning and accounted for the Colonels' initial marker of the series when he connected with one of Mameaux's fast ones and sent it over the left center field fence, high and far, which is no ordinary drive for a southpaw batter. The Kentucky boy is one of the most promising youngsters in camp, and his drive today just about cinched him a bet with the Colonels for the series being at least. On the bases Combs is a streak of lightning. He is just 21 years old, weighs 170 pounds and is six feet tall. He is a likable chap and the vets are all pulling for him to stick around.

#### For Home Town Folks

When the Conference on Unemployment adjourned after making a series of recommendations, one of its most important conclusions was that the remedy for the present unemployment crisis lay in each community. Among local means for prompt relief over of temporary distress, it recommended the starting of public works, and an "odd-job campaign." One city which took the suggestion very much to heart, with 500 jobless men out of a population of 17,000 was Gardner, Massachusetts. It

### FIRE DEPARTMENT

(Continued from page 1)

ment is to your city, or if you ever realize what the fire fighters must endure to protect your city, then I am satisfied that every man here will lend a helping hand to promote the protection a fire department affords, to build it up to its highest standard; to supply the necessary equipment; and above all, show some appreciation of the firemen who perform this duty.

Gentlemen, I will suggest that this town should have a fire prevention bureau and its duties should be to inspect and keep a record of all buildings.

Have all rubbish cleaned from cellars, attics and back yards. Inspect wiring.

Have netting placed under cellar gratings.

Have exits marked and see that there is an exit.

See that fire escapes are in good condition and not blocked.

Have fire exits placed in all hazardous places, especially where life is at stake.

See that your schools, theatres and picture shows are safe for your citizens to go to.

Gentlemen, there are state laws and the town is big enough to have such an organization to enforce them, or are you going to let this go on and say "I am sorry," when it is too late? You are inviting fire with this going on and may expect a visit at any time.

I will suggest that you train the fire department; provide them with badges and let them inspect buildings. In knowing a building is half the battle when fighting fire in it. I am satisfied that some of your insurance companies will teach them how to look for defects and inspect a building, and if it is your wish I will call on the insurance companies myself and ask for this favor. If I am not mistaken the state law gives the fire chief the power of building inspector now.

Who looks after the fire department? What rules and regulations have you?

Suggestions: Appoint a few men and call them fire commissioners. I will say three. Let their duty be to govern the fire department in all its branches. Have the power to appoint good young active men for the department. Have rules and regulations printed and enforce them. All business pertaining to fire fighting and fire protection should come before this body of commissioners for consideration. See that your department is drilled, well equipped and ready at all times. Have regular drills, attend them, encourage the men. Visit the station and see to it yourself that fire truck is ready at all times, hose properly attached to, chemical tanks properly charged, hydrants in good shape. Let the fire chief make written reports of all fires and their losses; the cause of fire and how it was handled; file these reports with the commissioners.

There are lots of things that should be done for the safety of your citizens that the men would soon find out.

Gentlemen, do you all know if your fire truck is in good condition; that it may render immediate service at all times? Do you know whether your equipment is sufficient to handle a serious condition that may occur at any time? Your duties are to protect the lives and property of your citizens.

Does your fire department have the right of way at all times? If not, you had better see that they do. You may be hanging in some window waiting for them some time.

Does your police force cooperate with the fire department? In what way? In many towns, too many citizens interfere and hamper the firemen in performing their duties. The fire chief has the power to call on citizens if he needs them, but in most cases the citizens run over the fire chief and his men. Damage they do, break out windows, open doors and give the fire a draft before the firemen are ready, or will be started in some doorway with a piece of furniture and block the firemen.

I suggest that the citizens be kept a reasonable distance from the scene of fire to give the fire

## JEWISH PEOPLE TO STAGE CAMPAIGN

KENTUCKIANS WILL RAISE MONEY TO HELP STARVING AND DESTITUTE PEOPLE OF EUROPE.

Col. Fred Levy of Louisville and Chairman of State Campaign and Irvin Marcus is State Director—Headquarters in Louisville.

During the latter part of March, the Jewish people of Kentucky are to join in the great campaign now being carried on by the American Jewish Relief Committee for the relief of the stricken Jewish people of Europe.

Since the great world war started the Jewish people of this country have raised practically \$50,000,000 for this work. Every cent of the money has been spent. According to the best figures of men who have just returned from personal inspection of conditions in Central and Eastern Europe, \$14,000,000 more must be supplied at once of the stricken Jews there are given adequate aid.

Already enthusiastic and effective campaigns have been carried on from Maine to California, and from Minnesota to Texas. Reports from these campaigns show that never before have the Jewish people of this country rallied to the cry of their stricken brothers and sisters in Europe as they are doing today.

Every state quota has been reached and passed—a most remarkable showing. Cities in which it was predicted that the campaign appeal would find no response are surpassing the fondest hopes of the campaign managers. Chicago's quota of \$1,000,000 was raised to \$1,800,000 and oversubscribed. St. Louis, Milwaukee, St. Joseph, Mo., Kansas City, Los Angeles, Baltimore, and other cities have exceeded their quotas.

Kentucky's campaign organization is in the hands of Colonel Fred Levy of Louisville, Chairman. Irvin Marcus of Louisville is director of the state drive. Headquarters are in complete operation on the third floor of the Keith National Theatre Building in Louisville.

### AT THE MOVIES

#### At Local Theatres Thursday

The thrilliest kind of thrills were my portion as I sat and watched "In Old Kentucky" at the New Theatre, also some spontaneous laughs that came from "way down deep."

"Queen Bess must win!"

Remember how Colonel Doolittle used to say that? Well, he says it again—silently of course—and friend, you will want Queen Bess to win just as much as you did in bygone days. Another thing—don't miss seeing the Colonel sitting on the fence watching the race. He gets so excited that he takes off his hat and pleads fervently.

"Please God, let Queen Bess win." Then when Queen Bess does flash across the line the Colonel says—"Thank you, God"—and topples heels over appetite off the fence. Well, sir, the laugh that went up from that audience yesterday amounted to a mammoth screech!

And you ought to see Madge leap across a chasm on horseback to save the man he loves. Phew! Makes your heart jump right up against your teeth. And—and—oh, take a tip and go and see all of "In Old Kentucky." —Norman Clark in the Baltimore News.

#### Played With Bernhart, Now

#### With Mary Miles Minter

Gascon Glass who came to this country as juvenile lead for Madame Sarah Bernhart, on her last American tour, will be seen as leading man in "Her Winning Way," with Mary Miles Minter at local theatres Tuesday. He has been seen in pictures with Marguerite Clark and Norma Talmadge, and was the young violinist in "Humoresque."

que." In Canada recently he was featured in several pictures from Ralph Connor's books, "The Forfeiger" and "Cameron of the Mounted."

#### Lois Wilson With Wally

#### Reid in Fine Film

Lois Wilson plays the leading woman's role opposite Wallace Reid in his latest Paramount release "The Hell Diggers," which is shown at local theatres Wednesday. This is not Miss Wilson's first appearance with the popular Wally. She will be recalled as Virginia McMurrin, daughter of the motor truck manufacturer in "What's Your Hurry?" The remainder of the cast is composed of several players noted for screen achievements. The original story and the scenario were written by Byron Morgan, the author of the series of automobile stories in which Mr. Reid has starred and the last of which was "Too Much Speed."

#### \$400 Fines in Taylorsville Boozing Running Cases

Taylorsville, Ky., Mar. 21.—Edgar (Blondy) Wallace and Clarence Bitzer, noted liquor traffickers, Lewis Evans, Louisville attorney and George Yenner, Louisville saloon keeper, were each fined \$400 in the Spencer Circuit Court Monday on charges of transporting liquor. Pleas of guilty were entered

by the defendants and the agreed fines were entered. Wallace, Evans and Yenner were each released on two charges of criminal conspiracy. There was but one charge against Bitzer. The finding of the four men disposes of all cases in the Spencer court growing out of the seizure by County Judge Cheatham and other Spencer county officials of several truckloads of liquor and a Buick automobile last August, as the whiskey from the D. L. Moore distillery at Vanarsdell, was being transported through Taylorsville. Wallace and others had bought the distillery.

#### Another Distillery Robbery in Nelson

New Hope, Ky., Mar. 21.—Whisky thieves, operating so stealthily that guards said they were unaware that a robbery had taken place, Monday night forced a window and sawed through steel bars at the Belle of Nelson warehouse, it was revealed. They rolled two barrels of whisky from the racks, siphoned the contents into containers and escaped. The barrels contained approximately 50 gallons each. A rubber hose is said to have been used to siphon the liquor.

#### Roadway Costs \$17,000 A Mile in Rockcastle

The Mt. Vernon Signal says that C. F. Bradbury, County Road Engineer, has made his report to the State Department of Road and Highways, showing the complete cost of the seven and one-seventh miles of pike construction between Mt. Vernon and Livingston, to be \$17,000 per mile. This \$17,000 per mile covered everything, machinery bought, repair work done, moving fences, even the moving of some houses in Pine Hill. There has been a great deal of talk about this road having cost thirty or forty thousand dollars per mile, and the Signal is glad to make this statement as to the actual figures.

#### "The Rats Around My Place Were Wise," Says John Tuttle

"Tried everything to kill them. Mixed poison with meal, meat cheese etc. Wouldn't touch it. Tried RAT-SNAP, inside of ten days got rid of all rats." You don't have to mix RAT-SNAP with food. Saves fussing, bothering. Break a cake of RAT-SNAP, lay it where rats scamper. You will see no more. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Douglas & Simmons and Stockton and Son. march

#### Busy Public Official Says Theodor's Black-Draught Helps Him Keep Physically Fit

Clay City, Ky.—"I have been in business here for twenty-one years; am also cornier, riding the Kentucky hills and hollows in all kinds of weather and under all kinds of conditions," says Mr. Sam T. Carr, of this place. "To be able to do so, I must keep physically fit, and Theodor's Black-Draught is my stand-by."

"These trips used to give me headaches, and that, I found, came from indigestion or from constipation. I was convinced that Black-Draught was good, so now I use it, and it gives perfect satisfaction. It acts on the liver, relieves indigestion, and certainly is splendid. I am never without it."

When you have a feeling of discomfort after meals, causing a bloating sensation, headache, bad breath, and similar common symptoms, try taking a pinch of Black-Draught after meals—a pinch of the dry powder, washed down with a swallow of water. This has been found to assist the stomach and liver to carry on their normal work, and helps prevent, or relieve, constipation.

Your druggist can supply you with this well-known, purely-vegetable liver medicine. Insist upon Theodor's, the original and only genuine Black-Draught liver medicine. RQ-347a

Harding is my shepherd and I am in want;

He maketh me to lie down on park benches; he leadeth me beside free soup houses.

Thou preparest a reduction in my wages for me in the presence of my creditors.

Surely poverty and unemployment will follow me all the days of thy normalcy.

BETTER ADVERTISING FOR BETTER BUSINESS.

## WHO PAYS THE ADVERTISING COSTS?

ELIMINATE Advertising from the Modern Merchandising and costs would be prohibitive.

Take Clothing, for example: Quantity Production enables the manufacturer to keep down production costs. By a campaign of advertising he gets wide distribution of his goods—increased production—lower unit cost.

A Breakfast Food manufacturer, on an appropriation of \$1,000,000, sells \$123,000,000 worth of goods—one cent in advertising for each \$123 sale, or less than one-tenth of a cent on each package.

Stop the advertising and what happens. Suppose all advertising stopped—we would soon be back in pre-Civil War days with 110 million people struggling for existence.

No advertising—no newspapers—no magazines! Unthinkable! Advertising costs are absorbed in greater production. There is no advertising cost.

### Big Paris Real Estate Deal Is Knocked Out

The Bonham circuit court was reversed by the Court of Appeals at Frankfort in the case of B. M. Renick against C. P. Mann and Hiram Redmon. Mann and Redmon, real estate brokers of Paris, entered into a contract with Renick to sell his residence in Paris at the fixed sum of \$13,500, with the understanding that they were to receive a commission of \$200. The brokers secured a buyer for \$12,500, but Mrs. Renick, in whose name the title was vested, declined to sign the deed. Mann and Redmon were allowed the commission by the lower court, which the appellate court said was in error.

There are over 72,000 persons on the aged pension list in London and more than two-thirds of them are women.

### Liquor Raids in Estill

Irvine, Ky., Mar. 20—Russ Sizemore and George Brinegar, police of Irvine, with three assistants, captured two 51 gallon stills and three men on Station Camp creek, about 8 miles from here this morning. 100 gallons of beer, 18 tubs and some whisky were also taken. The men, Ira and Frank McKinney and Luther Harris were held under \$500 bond to appear before the grand jury.

### BARRED ROCKS LEAD IN FEBRUARY EGGS

(By Associated Press)  
Lexington, Ky., Mar. 20—A flock of 28 Barred Plymouth Rock hens owned by Mrs. W. O. Kirk, of Daviess county, led the state's 47 demonstration flocks in February egg production by producing an average of 16.4 eggs a hen during that time, according to an announcement made today by J. H. Martin, in charge of the College of Agriculture poultry work.

In addition, this flock, which has produced an average of 48.2 eggs a hen from November 1 to March 1 is the leading one among those being conducted as demonstrations by their owners who are co-operating with the college extension division in showing the advantages of recommended practices in farm poultry work.

Thirty-four White Wyandottes owned by Mrs. M. B. Barnard, of Hartford, was second in February egg production, this flock having average 15 eggs a hen during the month. The third flock on the list was owned by J. T. Wilson, of Corydon, his 177 White Wyandottes having averaged 14.4 eggs a hen during February.

Owners of the remaining flock, among the ten-highest producing ones for the month, together with the number of hens and their average egg production follow:

Mrs. Paul O'Connell, McQuady, 126 Leghorns, 14.4 eggs; William Comes, Kirk, 130 White Leghorns, 13.6 eggs; Jos. E. Pitt, Fairfield, 174 White Leghorns, 12.6 eggs; Mrs. Eugene Culton, Parksville, 59 Rhode Island Reds, 12.5 eggs; Mrs. Sallie Atherton, Calhoun, 81 White Wyandottes, 12.4 eggs; Mrs. H. E. Roby, Boston, 56 White Plymouth Rocks, 12.2 eggs; and Mrs. J. R. Wilson, Olaton, 128 White Plymouth Rocks, 12.1 eggs.

## WORN OUT AFTER SHE COOKED A MEAL

Took Lydia E. Pinkham's Vegetable Compound—Read the Result

Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities before I took Lydia E. Pinkham's Vegetable Compound. My back ached all the time and I was unfit for housework. I was worn out if I cooked a meal, and was unable to do my washing. My girl friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if it had not been for your Vegetable Compound. I recommend your medicine to all women although I am young to be advising some one older."—Mrs. C. M. EMBRY, 318 W. Liberty St., Cincinnati, Ohio.

Lydia E. Pinkham's Vegetable Compound contains no harmful drugs and can be taken in safety by any woman.

## BLUE GRASS LEAGUE MAKES ORGANIZATION

The Blue Grass League seems to be a go whether Richmond becomes a member or not. The report of the last meeting of the promoters this week said: Six clubs, Lexington, Winchester, Maysville, Paris, Cynthiana and Mt. Sterling have entered the baseball futurity and all teams were represented.

Each team in the circuit will play fifty games during the season, one every Thursday and one every Sunday, beginning April 2 and continuing through Oct. 12. Lexington was favored with 20 Sunday engagements and 5 mid-week dates.

Thomas M. Russell, of Maysville, formerly head of the old Blue Grass and Ohio State Leagues, was chosen president with E. L. Willett, of Maysville, secretary-treasurer. J. A. Estes, of Lexington, was appointed official statistician.

A clause in the constitution adopted prohibits any club from having more than 16 men under contract at any time during the season. The salary limit for the clubs was set at \$650 month which does not include the playing manager's fee.

Mt. Sterling and Winchester, who had been rather hesitant about entering the loop were visited Thursday by delegates from Lexington, Maysville, Paris and Cynthiana and were lined up. In Mt. Sterling H. C. Hoffman is organizing a stock company to raise funds for the team. The Chamber of Commerce there is also supporting the movement.

J. S. Baskett and Charles Vallandigham, of Winchester, are behind the club in the Clark county seat. Vallandigham, a former Blue-Grass leaguer, will have the role of playing manager.

A stock company was organized in Cynthiana three weeks ago and it was announced at the meeting that all stock had been disposed of. The officers of the Cynthiana club are: Wood Taylor, president; John S. McDaniels, secretary and John Linahan, business manager and treasurer. No playing manager has been selected as yet by the Cynthiana directors.

## COLORED COLUMN

### A WINTER'S EVENING

Red blazes dance in the cheerful grate, with a flickering glow on the wall; while borne on the wings of a northern blast, snow crystals, hissing fall. But what care I for the wind or the snow, when comfort reigns within, when meal in the pantry still holds out and fuel is in the bin?

The stock are housed snug and warm in the barn, unharmed by the storm passing by; the fowl on the roost are discussing their plans, the pigs grunt content in the sty. Let her go, rain or snow; let it howl and growl and blow. There comes a time by natural law for all things here below. We need time for reflection 'round the fireside of home, and perhaps will feel more thankful for the good days when they come.

At evening the paper comes fresh from the city press and eagerly I glance at all the news. To know, I'm almost crazy, what other people think, and weigh, compare and ponder different views. Then to my small library, quite thoughtfully I turn. I have of books, I'm sorry, but a few. You see they've been selected with care, as have my friends, and I love them because they're good and true.

First on the list the Bible, I like so much to read of characters like Samuel, Esther, Ruth, and of Nehemiah, builder, and of Ezra, mighty priest—I read for inspiration and for truth; the

next in order, Shakespeare, Milton, Goldsmith, Burns and state ly Pope with his "Essay on Man;" next, kind, light-hearted Dunbar, playing on his harp of gold, whose brilliant life, cut short, seems but a span.

Next a few "Lives of Statesmen," who like our first President, none too proud to kneel in snow to pray for starving, ragged armies and the great man's prayer was heard. That's why we have "democracy" today; and Lincoln, Liberator, first martyr of President, direct descendant of Charlemagne, with depth of love and sympathy, with breadth and range of mind that puzzle scholars, sounding him in vain.

One more, for space is limited. There rose out of the South that dusky statesman sage of Tuskegee who found his race industrially in bonds of slavery still, and pointed out the way, how to be free. He told us at Atlanta, in the purely social world, the races could live peacefully apart, but in matters great and vital to the country's strength and growth we should be joined as one in mind and heart.

So, while the tempest howls, without I'm thinking by the fire, how we pulling together may rise to a standard higher. Rain or snow, let her go; let it hail and growl and blow. There is a time by nature for all things here below; we need time for reflection 'round the firesides of home, and, perhaps, we'll feel more thankful for the good days when they come.
